

MILTON.

Well, as we have been enjoying so much of the good old summer time this beautiful November, had almost forgot that we were one of the dear old Registers correspondents.

The hand of affliction seems to be resting heavy on the home of G. W. Villars, as they are now nursing the fourth case of typhoid fever in their family. One daughter is much improved but the father and two other daughters remain very ill at this writing.

My good readers you remember that Smalley Conard last spring transplanted to a very large field two tobacco plants, and as we think you will be interested to hear how they grew will give little of their history. It was a beautiful sun shining day when he planted them, and the smaller one being less than one inch in diameter was soon withered by the sun's bright rays, so it met an untimely end, but the other plant being a little larger lingered for many days, seemingly on the verge of death but finally to the surprise of all it came forth and grew luxuriantly all through the long summer days, and now Mr. Conard has stored in his large tobacco barn a most handsome plant.

Mr. Albert Meadows, our former neighbor, made us a call the other day and tells us that they are enjoying their new home fine. We miss him sadly but rejoice with him in his prosperity.

Mrs. Sarah Bale Holley was the guest of her son-in-law, L. J. Lewis and family, Sunday.

C. W. Holley, Jr., is quite sick.

W. G. Holley and wife were the guests of Smalley Conard and wife, Sunday.

Thanksgiving Day is nearing and let us remember that it is not merely a holiday for feasting but of hearty thanksgiving for the bountiful harvest and manifold blessings of the past year. Forget-me-not.

WONDERFUL CHANGES ABOUT THE MAMMOTH STATE MOUND.

Visitors who go to Moundsville next summer to see the penitentiary and are allowed the freedom of the city, will witness some wonderful changes about the mammoth mound which was recently purchased by the state.

Workmen have removed from the mound all the dead trees, some of which were several hundred years old. The underbrush has all been removed and the mound is now said to present the aspect of a well-kept grove.

The soil on the mound and around it is very rich and the trusty prisoners from the penitentiary who have made the improvements are working the ground in preparation for the grass seed that is to be planted. Walks will be laid out, flower beds made and the place is to be made into a beautiful public park.

UNCLE SAM HAS FASTEST SHIP.

Rockland, Maine.—The trial performance of the battle ship North Dakota developed the fact that the United States Government is now in possession of a "Dreadnought" that can show a clean pair of heels to any of the monsters of other nations afloat. The new ship was sent over the course of a mile at a maximum speed of 22.25 knots, which fractures the best record made by any of the Dreadnought type.

By her showing the North Dakota takes precedence over all others in the battle ship class as a general first-class fighting machine, and with her sister ship, the Delaware, the Government has a pair of bulldogs strong enough to cope with a fleet of sea fighters of the old-fashioned type.

It was not a burst of speed that was taken into consideration by the experts who witnessed the trial, but general capabilities along the lines of speed and power. Her average in the standardization test reached the surprising figure of 21,833 knots.

The latest fad in society is the tub cure. In this the patient arises just as the crisp air of the morning is smothered by the first sunbeam. An

ordinary washtub is then filled with hot water and soap suds, into which various articles of linen are thrown. After they are thoroughly saturated the patient takes them up one at a time and rubs them briskly up and down on a washboard placed in the tub. This is kept up until the hands, arms and face are a glowing pink. The patient then goes into the open air and hangs all the linen articles on a line stretched for that purpose. The one completing the task first announces the time to others over the telephone, and is entitled to a prize. It is exciting sport and also invigorating exercise.

Treat your wife as though she were a queen and that will help make her one.

PUZZLING CASE.

Medical experts are interested in the case of 19-year-old Aubrey Wilson, of Nottoway county, Va., who is totally blind in the day time, but can see like a cat in the dark. The young man can speed a bicycle when the night is so dark that ordinary people have to walk with caution in the daytime he gropes about, able only vaguely to distinguish any object and with no discrimination as to colors. Because of his peculiar infirmity the young man is noted as a possum hunter. He can distinguish the animals in the trees in the dark as readily as a dog can follow the scent. All his life Wilson has suffered from this defect. He says it grows out of too much light entering the eye. It is called the Albino eye, he says.

DIDN'T WANT MUCH.

"What's your pa going to buy for ma for Christmas?"

"I don't know yet. Pa hasn't made up his mind."

"He hasn't?"

"No; he's got such a lot of things to choose from. All ma wants is a set of furs, a diamond ring, an electric runabout, a party dress, a pearl necklace and a solid gold purse."
